MEMORANDUM FOR: Deputy Director of Information Technology

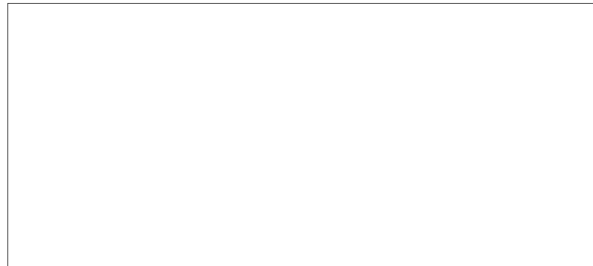

FROM:

[REDACTED]  
Deputy Director of Information Resources

SUBJECT: Standard User Interface Requirement

1. The Directorate of Intelligence requests a standard user "window-like" interface and a uniform command structure across PCs and the mainframe, across computing centers, and across the broad range of commonly used applications. The PC-to-mainframe interface should be as "seamless" as feasible and be built on the SAFE Delivery 3.5 interface which is currently being developed.

2. [REDACTED] Chief of our Planning and Development Division, is the OIR point of contact. She can be reached on extension [REDACTED]
